Student ID:		24CS072	Student Name:		Patel Prince			
Subject code & Name	:	CSE304 & Full Stack Development	Practical	:	1	Academic Year	:	**2025-26**

Task - 1

Aim

• Create a React application using Vite for a student portfolio page.
• The application must include at least 4 reusable components: Header, About, Skills, and Footer.
• Each component must be independently structured and composed into a single-page layout.
• No logic or JSX should be duplicated across components.
• Props must be used to pass at least one piece of data into a minimum of 2 components.

Output

Student Portfolio

The output displays the student portfolio page containing the Header, About, Skills, and Footer components. All components are combined into a single-page layout using React.
